QUESTIONS

Was the cloud strategy integrated in the Project?

YES

WEIGHTAGE:20

add question

Hove you simplified integration and increased the re-usability across different development groups?

YES

WEIGHTAGE:20

add question

Are estimates (e.g., size, cost, and schedule) documented for use in planning and tracking the software project?

YES

WEIGHTAGE:20

add question

Do the software plans document the activities to be performed and the commitments made for the software project?

YES

WEIGHTAGE:20

add question

Do all affected groups and individuals agree to their commitments related to the software project?

YES

WEIGHTAGE:20

add question

Does the project follow a written organizational policy for planning a software project?

YES

WEIGHTAGE:20

add question

Are adequate resources provided for planning the software project (e.g., funding and experienced individuals)?

YES

WEIGHTAGE:20

add question

Are measurements used to determine the status of the activities for planning the software project (e.g., completion of milestones for the project planning activities as compared to the plan)?

YES

WEIGHTAGE:20

add question

Does the project manager review the activities for planning the software project on both a periodic and event-driven basis?

YES

WEIGHTAGE:20

add question

Are measurements used to determine the status of the activities for software tracking and oversight (e.g., total effort expended in performing tracking and oversight activities)?

YES

WEIGHTAGE:20

add question
